Dear Secretary of Veteran Affairs Robert A. McDonald:

Please consider exposing this massive accounting fraud that's killing this veteran. <http://www.chiefjudgesmith.com>

Can you imagine the Nation's reaction for the VA to do this?

Dear VA Secretary Shulkin:

Please have the My HealtheVet Coordinator identify and show the source of these words:

"System Use Warning Notice I understand that I am accessing a U.S. Government information system (system) operated by the Department of Veterans Affairs (VA). I understand that as an authorized user I may only access information to which I have the legal authority to view and use. VA will monitor and record activity on this system to protect the system and its information and may use that monitoring information for official administrative or legal purposes. I understand that unauthorized use of the system such as gaining unauthorized access to data, changing data, causing harm to the system or its data or misuse of My HealtheVet components is prohibited and may result in criminal, civil, or administrative penalties. I also understand that VA can suspend or **stop my use of this system if VA suspects** any unauthorized use of the system attributable to my account has occurred. By accessing this system, I hereby acknowledge the above and consent to such monitoring. By clicking on this button, you are agreeing with the statements above. If you do not agree, then you will not be able to proceed because the login options will remain hidden. I Agree I Do Not Agree"

The My HealtheVet Coordinator's accusations against me in her letter of May 13, 2013, are false. Please have her show her evidence:

(May 13, 2013)

"Dear Mr. O'Connell,

When you opted in to the VA's Secure Messaging program through your MyHealtheVet account, you agreed to specific terms and conditions for the use of that program (see attached). The purpose of this letter is to notify you in writing that **you have violated those terms and conditions** by sending an excessive number of messages. If your inappropriate use of the VA's Secure Messaging program does not cease, actions may be taken to block you from the program.

If you continue to demonstrate inappropriate use of Secure Messaging, a request to block your usage will be presented to the Southern Arizona VA Health Care System (SAVAHCS) MyHealtheVet Workgroup. If the workgroup makes a recommendation in favor of blocking your use, you will be notified by letter, which will include information on how you can appeal the decision.

We sincerely hope you will make the choice to abide by the rules of Secure Messaging so that you can continue to enjoy the convenience of the program. If you have any questions about the content of this letter, please contact me at (520) 792-1450 ext. 6889.

Sincerely, Paula S. Newsome
My HealtheVet Coordinator"

If you connect the dots "... **you have violated those terms and conditions...**" and "... **stop my use of this system if VA suspects ...**", I believe you can see that if I agree to this warning notice, my access to My HealtheVet being blocked is a forgone conclusion. If I don't agree to this warning notice, my access to My healtheVet remains blocked. Both options make it appear as my fault.

I don't believe Paula Newsome would do this on her own. I believe senior management is instructing her and protecting her. To fix the VA you have to fix senior management. youtu.be/7DpKtjk3r1k

Thank you

Comment: The last attempt at a DOD-VA joint digital record system failed and costs the taxpayers one (\$1,000,000,000) billion dollars. I believe the power of local managers to covertly obstruct it was underestimated. Why not flush out the obstructions beforehand?

Dear VA Secretary David Shulkin:

For the past 25 years, I've been trying to expose accounting fraud - chiefjudgesmith.com tucsonva.com

The fraudsters want me gone. Please stop the Tucson VA from targeting me. Please have them unblock my access to myhealth.va.gov . It is a matter of life or death.

Thank you for deciding to create a joint DOD-VA joint digital record system. As you know, the last attempt failed and cost taxpayers one billion dollars. I believe the power of local managers to covertly obstruct it was underestimated.

I hope a joint DOD-VA digital record system would lessen local manager's ability to manipulate records and frame veterans. For example, try to follow the "folder" trail in this frame-up - <http://www.tucsonva.com/folder/folder.html>

The only way to see what's inside the VA is to do whatever it takes to follow the trails. For example, if the medicine trails were followed it would show that the labels on my medicine bottles were made to appear as if four fills were sent, when only one fill was sent. See the attachment "usedaughter2VAs1not4fills-22p.pdf" and followthetrails2013.com/letter1/letter1.html and followthetrails.com/use-daughter2013/phone2016/phone2016.html

Blocking my access to myhealth.va.gov blocks me from recognizing frame-ups like this. Please do not ignore me.

Dear VA Secretary David Shulkin:

For the past 25 years, I've been trying to protect my family and me from accounting fraud. I'm currently posting the following on Facebook. If you have your staff follow the trails you can see how they work:

"What is the secret? Why is this accounting fraud protected instead of the public? The American people should know.

Senator Mark Warner twitter.com/_/status/864890758867943424

- 1) Why is it ok for 17 of my 18 responses to a complaint to disappear after being received by the Court? chiefjudgesmith.com
 - 2) Why is it ok to covertly take over my 77 acres in Highland County, Virginia, when the Trust documents clearly state that the Trustee is not individually liable? book8307page1446deed.com tucsonva.com
 - 3) Why kill the messenger instead of exposing the accounting? Does \$545,820.43 received less \$26,917.17 recorded not mean \$518,903.26 disappeared? book467page191money.com

What is the secret? When is the law enforced against big people?"

They want me gone. I believe the Tucson VA has been misinformed. Please stop them from targeting me. Please have my access to myhealth.va.gov unblocked.

Thank you for creating a joint DOD-VA joint digital record system. It is obvious that it should be done. As you know, the last attempt failed and cost taxpayers one billion dollars. I believe the power of local management to covertly obstruct it was underestimated.

Dear VA Secretary Shulkin:

My access to myhealth.va.gov remains blocked. This is critical. Please have it unblocked. Would you like to know in how many known ways the myhealth.va.gov coordinator (paula.newsome-williams@va.gov) has blocked my access and made it appear as my fault? This is one way. When I try to log in I get a message that says:

"System Use Warning Notice I understand that I am accessing a U.S. Government information system (system) operated by the Department of Veterans Affairs (VA). I understand that as an authorized user I may only access information to which I have the legal authority to view and use. VA will monitor and record activity on this system to protect the system and its information and may use that monitoring information for official administrative or legal purposes. I also understand that VA can suspend or stop my use of this system if VA suspects any unauthorized use of the system attributable to my account has occurred. By accessing this system, I hereby acknowledge the above and consent to such monitoring. **By clicking on this button, you are agreeing with the statements above. If you do not agree, then you will not be able to proceed because the login options will remain hidden.** I Agree I Do Not Agree"

After I clicked "Agree" (rather than not be able to proceed), It asked for my password and user ID. I don't ever remember being asked for my password and user ID after clicking "Agree". I stopped. I felt that whatever I entered might not be accepted and the obstacles would multiply and be made to appear as my fault. Is this a usual and customary abuse warning or was it tailored for me? What triggered this? This is similar to a May 13, 2013, frame up. See the attachment "accuse9p.pdf"

Does your silence mean you support the Tucson VA's agenda? Do you know that getting rid of me, who is trying to protect our family from accounting fraud, stops me from protecting our family from accounting fraud? That you're protecting the predators and not their prey?

All the Tucson VA has to do to get rid of me is to stop my meds and pretend they don't know what the problem is. It has been proven, again and again, that I can not get the attention of a just power to right the wrongs.

Dear VA Secretary Shulkin:

If you do not stop the Tucson VA's agenda toward me soon, or transfer me to a safe place, I'm done. I believe a cover up is in progress over the events leading up to my two May 23, 2017, appointments.

I can't stop the Tucson VA from refusing to communicate with me and making it appear as my fault. History suggests a current setup is a variation of a previous set up - to remove my access to <https://www.myhealth.va.gov> and make it appear as my fault. Please see the attachment "accuse9p.pdf".

My access to <https://www.myhealth.va.gov> is blocked now. Please have it unblocked.

1) When I try to log into <https://www.myhealth.va.gov> I get a message that says:

System Use Warning Notice I understand that I am accessing a U.S. Government information system (system) operated by the Department of Veterans Affairs (VA). I understand that as an authorized user I may only access information to which I have the legal authority to view and use. VA will monitor and record activity on this system to protect the system and its information and may use that monitoring information for official administrative or legal purposes. I understand that unauthorized use of the system such as gaining unauthorized access to data, changing data, causing harm to the system or its data or misuse of My HealthVet components is prohibited and may result in criminal, civil, or administrative penalties. I also understand that VA can suspend or stop my use of this system if VA suspects any unauthorized use of the system attributable to my account has occurred. By accessing this system, I hereby acknowledge the above and consent to such monitoring. **By clicking on this button, you are agreeing with the statements above. If you do not agree, then you will not be able to proceed because the login options will remain hidden.** I Agree I Do Not Agree"

2) After I clicked "Agree" (my choice was the above or "not be able to proceed"), It asked for my user ID and password. I don't ever remember being asked for my password and user ID after clicking "Agree". At this point, I stopped. I felt that whatever I typed in might not be accepted and the obstacles would multiply.

3) What triggered this? Is this a usual and customary abuse warning or was it tailored for me? After the MyHealthVet Coordinator falsely accused me of abusing secure messenger in <https://www.myhealth.va.gov> on February 13, 2013, and threatened to block my access to it, I don't believe I ever used secure messenger again, except to receive secure messengers:

"May 17, 2013 1:17pm- Veteran to Paula Newsome

Dear Paula Newsome, My HealthVet Coordinato:

 This is an automated message. Please do not reply to this email."

There is a pattern of an element in the VA refusing to communicate with me and making it appear as my fault. Please ask the MyHealtheVet Coordinator <paula.newsome-williams@va.gov>(?) to unblock my access to myhealth.va.gov .

Why do you refuse to email me? My email to you said:

"Please tell me the purpose of my May 23, 2017, 3:00 pm, appointment that I had with you that was canceled. I'm concerned (understatement) that that appointment was for the annual visit that is required for me to continue to get my medicine. And if I don't have that visit, my medicine will be stopped. If my medicine is stopped it will kill me. Please schedule, as soon as possible, the annual appointment I need to stop my medicine from being stopped. Please respond. Why don't you respond to my emails? Anthony OConnell 7637"

Why do you refuse to email me? Do you understand what I am saying?

Thank you for sending me the two attachments and pointing out the pertinent parts. Both attachments are beautiful. So clear and easy to use. The 6500hbk25.pdf is exquisite.

I interpreted the email issue as it being ok for the VA to email with veterans as long as it doesn't contain sensitive information. Do you consider making an appointment sensitive information?

My computer notifies me when I get a secure message. But I can't access them because I don't have access to myhealth.va.gov.

I've asked that they be sent by postal mail or email. There should be about 3 or 4 secure messages in the system that I need to see. Would you please ask Ocotillo to mail them to me?

Thank you again for the beautiful attachments.

I am not going to engage in a debate over the interpretation of VHA directive. The accepted and appropriate forum across VHA for secure communication between a Veteran and his/her care team should be either via phone, myHealthVet, or postal mail. For your safety and to assure you receive timely feedback, you should not be working through me to coordinate your care but rather be working directly with your care team.

Dear Tucson VA Director William Caron:

To my surprise, I was assigned a social worker. I don't need a social worker. I don't want a social worker. Please, dis-assign the social worker.

Thank you.

Mr. OConnell,

First off, thank you for your service. While I appreciate you reaching out to me, I am not privy to your specific healthcare needs and the use of email is not a secure method of communication to discuss such matters. I recommend you work through your PACT team directly via telephone, MyHealthEVet secure messaging, or postal mail for your healthcare concerns. Keep in mind, there is a social worker assigned to groups of patients, just as a physician works with groups of patients, but you are under no obligation to engage in any services that you don't feel will be beneficial to you.

Dear Lisa Synco,

Thank you for finding my 2009 Power of Attorney in the VA records today.

I understand it is in something called "Keepers" when it was in "Vista". Or is it the other way around?

I understand that the VA will put a watermark on it that shows it has been rescinded. Please get me a copy. If you can't get a copy, I surely can't. I know you said you can't print it out but there are different printers all over the hospital.

Thank you. Have a good weekend.

Can the VA expose the document trail of the POA ("VA Advanced Directive: Durable Power of Attorney For Health Care and Living Will, VA Form 10-0137") I gave the Prescott VA shortly after January 30, 2009? If VA trails can't be exposed the VA can't be fixed.

Dear Mr. O'Connell

Thank you for your recent inquiry to Secretary Shulkin regarding your POA on file with the Tucson VA. Upon review of your compensation file a Power of Attorney is listed as received with your signature on 7/18/16 for compensation claim and appeal purposes appointing Arizona Department of Veterans Services as your POA. If you would like to remove your POA at any time, please send us a written request stating your wish with the effective date and it will be processed accordingly. At this time there is no listing that you have a POA on file at the Tucson VA Medical Center. Your patience is appreciated while this matter was reviewed for resolution. If you have any additional questions or concerns please, feel free to contact me back at your earliest convenience using the contact information below

Thank you for your response to my 8/1/17 email response to your recent email to Dr. David Shulkin. I am attaching a VA Form 3288 for you to fill out and sign and you can email back to me or fax to the Evidence Intake Center at 844-531-7818 or mail to the Evidence Intake Center at PO Box 4444 Janesville, WI 53547. Upon receipt of that form, we can process your request to release the documents from your file that you are requesting, such as the VA Form 21-22 assigning Power of Attorney for your VA benefits purposes. In regards to the email itself, as to which one it was, it was dated 7/23/17 at 2:17pm. Currently, that is all of the information available for this inquiry. I must have appeared very rude to you when we first meet yesterday. I have attempted to fulfill your request. I received the following reply:

"Unfortunately, ROI Department here at NAVAHCS can't rescind the Advance Directive on file. However, the veteran should provide VA a new Advance Directive to replace the old one on file. Once receive the new one, that will be scanned and the old Advance Directive will be no longer valid.

Hope this information helps.

Thank you!"

Therefore I have attached the new/updated form for you to complete and return either completed with witnesses you choose or bring with you to your next appt and VA staff can witness for you at that time.

Also, I'm sure you are aware I have been instructed that this is not the most secure way for us to communicate.

Dear Deborah Josselyn, LMSW,

Good morning. Thank you for finding my POA ("VA Advance Directive: Durable Power of Attorney for Health Care and Living Will", VA Form 10-0137, dated January 30, 2009) and for your email of April 30, 2018.

By law, a POA can be rescinded at any time without justification or contingencies. The VA can't legally go against this law. Where is it written that the VA can refuse a veteran's request to rescind their POA? A copy of the VA Handbook 6500, of March 10, 2015, is attached.

Please make it show in the VA records that I rescinded this POA and send me a copy of the document(s) that shows the VA acknowledges it.

I believe senior management's avoidance of a paper trail like email and calling it security, and the refusal to honor a Veteran's request to rescind their POA, are accountability issues.

Thank you.

Sincerely, Anthony OConnell 7637

This is a request for you to meet with me next week Tuesday May 15th after your 1pm appointment from 2:15-2:45pm for the purpose of discussing this matter face to face. Another possible time would be from 1-1:30pm on May 18th prior to your appointment.

There are issues about Advance Directives and end of life decision making that would be better suited to a face to face discussion rather than through multiple emails.

It's important to keep a paper trail to reduce misunderstandings. Why would the VA refusing a veteran's request to rescind her or his POA be secret?

2) Email regulation from VA HANDBOOK 6500 March 10, 2015, Appendix F, F-168:

"(d) Electronic Mail

1. The VA email system will be used for authorized government purposes and will contain only non-sensitive information unless the information is appropriately encrypted with VA-approved encryption technologies. VA Directive 6609 provides policy that can be used for mailing personally identifiable and sensitive information when encrypted email is not available. Email users must exercise common sense, good judgment, and propriety in the use of this government resource. Email is not inherently confidential and users should have no expectation of privacy when using government mail systems. A technical or administrative problem sometimes causes a situation where a system manager or management official may need to review email messages. Such reviews will be handled in accordance with the Operating Unit's "Electronic Mail Review" SOP. The ISO and/or PO will provide concurrence for requests for removal of email messages when warranted".

Dear Deborah Josselyn, LMSW,

Good morning. Thank you for finding my POA ("VA Advance Directive: Durable Power of Attorney for Health Care and Living Will", VA Form 10-0137, dated January 30, 2009.

By law, a POA can be rescinded at any time without justification or contingencies. Where is it written that the VA can refuse a veteran's request to rescind the Veteran's POA?

Please make it show in the VA records that I rescinded this POA and send me a copy of the document(s) that shows the VA acknowledges that I rescinded it.

Thank you.

Sincerely, Anthony OConnell 7637

Anthony OConnell,

You keep saying the same thing over and over.

I have asked to meet with you face to face when you are on campus for your appts next week to discuss this issue with you.

You are not being told you cannot rescind your AD, you are being told that there are consequences to your actions and you might want to know what they are should we continue down this path. Please do some research on the State of Arizona AG website (azag.gov under Life Care Planning) to become better educated about consequences to not having a plan in place at your end of life.

We can certainly honor your request to rescind your AD but it makes more sense for you to write a new one with a new Representative if you do not want to have your daughter listed as such. It is important for you to realize that if you do not have an AD in place at your end of life the VA (or any medical facility) will have to follow the letter of the law which is to find your next of kin to make those decisions for you.

Please consider meeting with me at the times suggested in the previous email.

Thank you for your service,

Deborah

The Advance Directive document Veteran is referring to was submitted to the Prescott VA Medical Center and scanned into his Electronic Medical Record on 02/23/2009. This document was deleted on May 11, 2018.

This writer has requested, several times through email, to meet with Veteran face to face to show him in his Electronic Medical Record the document has been deleted. Veteran has not acknowledged receipt of the emails nor has he made himself available on the days he has been at SAVAHCS for his recent ophthalmology appts.

Discussion conducted with the patient on this date to provide instruction regarding the purpose for advance directives and advance directive forms.

Advance directive forms were not completed on this date for the following reason(s): Patient declined.

Plan: F/U appt. will be scheduled upon veteran's request. The patient was informed (through email) that until copies are provided, SAVAHCS will provide all care and treatments consistent with law and regulations.

Veteran has been encouraged to go to Eligibility to update his medical record if he does not want his daughter (person listed as Health Care Agent in the deleted AD) listed as his Next of Kin and Emergency Contact.

Dear Mr. O'Connell:

It is our goal at the Southern AZ Veterans Health Care System (SAVAHCS) to provide quality care to our Veterans, and we appreciate the opportunity to address your concerns. I received your newest email regarding your request to have your Advance Directive rescinded. I have attempted to provide you with that evidence without success. This issue has been addressed in the Advance Directive Document dated May 18, 2018 and provided to you in writing on May 25, 2018. As stated: your Advance Directive from 2009 has been deleted. It is no longer in your electronic medical record which you can access on line yourself. When you look at the Advance Directive note dated 02/23/2009 the word on it is "Deleted Image".

From Merriam Webster: **Definition of RESCIND**

1 : to take away : REMOVE

As previously communicated with you: your Advance Directive has been removed as requested.

If you have any further questions please contact the Medical Records department, maybe they will have better luck explaining this to you.

This is to remind you it is necessary to communicate through the mail and not through email due to your email is not an encrypted email account.

If you need any additional information, please feel free to call me at: 520-792-1450 ext. 5764.

Sincerely,

A handwritten signature in cursive script that reads "Deborah Josselyn".

Can you stop the VA from targeting me? Can you stop the VA practice of refusing to communicate with me and making it appear as my fault? Of the four basic ways to communicate, the VA uses the two they know won't work; secure messenger and the telephone, and make it appear that they can't communicate with me and make it appear as my fault.

I was falsely accused of abusing secure messenger so I can't use secure messenger. My repeated requests to send my messages by postal mail or email are ignored. I believe I have five secure messages pending. The telephone does not leave a paper trail. Because I am targeted, my only protection is a paper trail. That is why I took out my telephone about seven(?) years ago.

VA HANDBOOK 6500 March 10, 2015, Appendix F, F-168, says: "1. The VA email system will be used for authorized government purposes and will contain only non-sensitive information unless the information is appropriately encrypted with VA-approved encryption technologies." Do you consider making an appointment sensitive information? Do you believe local rules override the VA Handbook? If so, why?

Thank you, Anthony OConnell 7637

"May 17, 2013 1:17pm- Veteran to Paula Newsome

"Dear Paula Newsome, My HealtheVet Coordinator:

I received your letter dated May 13, 2013 (I received two copies, once on May 15(?) and once on May 17.) and quote it below for reference:

"Dear Mr. O'Connell,

When you opted in to the VA's Secure Messaging program through your My HealtheVet account, you agreed to specific terms and conditions for the use of that program (see attached). The purpose of this letter is to notify you in writing that you have violated those

terms and conditions by sending an excessive number of messages. If your inappropriate use of the VA's Secure Messaging program does not cease, actions may be taken to block you from the program.

If you continue to demonstrate inappropriate use of Secure Messaging, a request to block your usage will be presented to the Southern Arizona VA Health Care System (SAVAHCS) MyHealtheVet Workgroup. If the workgroup makes a recommendation in favor of blocking your use, you will be notified by letter, which will include information on how you can appeal the decision.

We sincerely hope you will make the choice to abide by the rules of Secure Messaging so that you can continue to enjoy the convenience of the program. If you have any questions about the content of this letter, please contact me at (520) 792-1450 ext. 6889.

Sincerely,

Paula S. Newsome

My HealtheVet Coordinator"

This letter is not true. Please send me a copy of any evidence that would support the charges in this letter.

Thank you.

Can you stop the VA pattern of refusing to communicate with me and making it appear as my fault? Of the four basic ways to communicate, the VA uses the two they know won't work with me; secure messenger and the telephone.

It would not be prudent for me to use secure messenger because I have been falsely accused of abusing secure messenger. See tucsonva.com and click "coordinator". My repeated requests to send the five(?) pending secure messages to me by postal mail or email are ignored.

I took my telephone out to try to get the VA to communicate with me in a way that would leave a paper trail. Instead, the VA use that to justify not communicating with me; As if the VA did not have access to postal mail and email. Why call my daughter 900 miles away instead? See tucsonva.com and click "use daughter". Do you think it's OK to deny a veteran a true paper trail to protect himself?

DEPARTMENT OF VETERANS AFFAIRS
Southern Arizona VA Health Care System
Tucson, AZ 85723

SEP 13 2018

In Reply Refer To: 678/11-PCCC

Mr. Anthony OConnell
439 S. Vista Del Rio
Green Valley, AZ 85614

Dear Mr. OConnell,

This letter is in response to your questions sent via multiple emails through September 8, 2018. I have asked Robert Klein, Administrative Officer, Primary Care & Community Clinic Services (PCCCS), to research this matter.

Upon receiving email correspondence where you noted being targeted by the VA and quoting that "it's a matter of life and death to me", we were concerned about your safety. In circumstances where we feel there may be a general health or welfare concern, we work with our local law enforcement to complete a safety/welfare check. The Pima County Sheriff's department visited you at your residence on August 24, 2018, and reported that you were safe at home and not a threat to yourself or others.

In regards to rescinding your Power of Attorney (POA), the Southern Arizona VA Health Care System (SAVAHCS) has no record of a Power of Attorney or Living Will on file; however we did find that there was an Advanced Directive at the Prescott VA signed by you in 2009. This has been addressed on several occasions over the last 3 years, with the most recent being on May 29, 2018. A certified letter was sent to you which was received and signed by you on June 2, 2018 with a screen shot of your record showing the Advanced Directive was deleted from your record. There is currently no Advanced Directive or POA or Living Will on file.

Please be assured that the SAVAHCS strives to accommodate patient preferences. You have noted that your communication preferences are email or postal mail and we have annotated these preferences in your medical record. If you choose to utilize email electronic communication in lieu of postal mail, MyHealthVet secure messaging is the appropriate system. Public email accounts are not a secure method of communication and cannot be utilized for concerns related to your healthcare. Patient information including name, social security number, date of birth, etc. is considered sensitive and protected health information. Future public emails sent outside the MyHealthVet system will not be responded to. In lieu of telephone correspondence or postal mail, secure messaging with your PACT team is the most timely way to receive answers to questions or concerns regarding your healthcare.

We reviewed your My HealthVet account and there are no restrictions which would prevent or block you from utilizing this method of communication. If you need assistance in accessing or utilizing your My HealthVet account, please contact Paula Newsome-Williams by phone at (520) 792-1450, extension 6889, or by postal mail at Southern Arizona VA Health Care System (0-002), 3601 S. Sixth Avenue, Tucson, AZ, 85723 or Robert Klein by phone at (520) 792-1450,

extension 6274, or by postal mail at Southern Arizona VA Health Care System (0-002), 3601 S. Sixth Avenue, Tucson, AZ, 85723.

Your Ocotillo One PACT team consists of Dr. Christopher Mullen, MD, Kelly Carr, RN, Nancy Bock, LPN, and Michelle Majuta, Medical Support Assistant. You can reach your Ocotillo One PACT Team through My HealthVet or by phone at (520) 792-1450, extension 5157 or by postal mail at Southern Arizona VA Health Care System (0-002), 3601 S.
